

Christian Lee John

Ph.D. Candidate
Graduate Group in Ecology
University of California, Davis

Physical address:

1327 Academic Surge Building
Department of Wildlife Fish and Conservation Biology
UC Davis
Davis, CA 95616

Email address:

cjohn@ucdavis.edu

Education

The Pennsylvania State University – M.Sc. Ecology – December 2016
The Pennsylvania State University – B.S. Biology – December 2013

Professional Experience

Research

University of California, Davis Department of Wildlife, Fish, and Cons. Biol. Sep 2017 – Present
Graduate student; evaluating drivers and outcomes of migration in Sierra Nevada bighorn sheep. Combining multiple levels of remote sensing to explore factors affecting abiotic and biotic landscape phenology, and relationships among snowmelt and vegetation phenology, and sheep movement, reproduction timing, and reproductive success. PI: Eric Post, UC Davis WFCB.

Proyecto La Paleohidrología del Valle de Teotihuacán Jul, Dec 2017
Remote sensing specialist for Mesoamerican paleohydrology and archeology project investigating water management and retention practices of ancient societies, using structure-from-motion multispectral mapping of the Teotihuacan archaeological zone, ejido land, and private farms. PI's: Christian John and Andrés Mejía-Ramon; UC Davis WFCB and PSU Dept. of Geography.

Penn State Mobile Geospatial Systems Group Jan 2017 – July 2017
Remote sensing specialist; trained new remote pilots to build and pilot unmanned aerial systems. Compared multiple remote sensing approaches to fine resolution surface relief modeling. PI: Doug Miller, Department of Geography.

Penn State Department of Biology and Polar Center Aug 2014 – Dec 2016
Graduate student; studied impacts of climate on Arctic caribou migration. Monitored plant phenology at multiple scales including species-level observations, a homemade unmanned aerial system, a time-lapse camera network, and multispectral regional satellite data. PI: Eric Post, Dept. of Biology.

University of Tulane Department of Biology Jul – Sep 2014
Field assistant; investigated territoriality in tropical hummingbirds. Implications and drivers of territory use and change were evaluated by artificial nectar robbery and experimental pollination. PI: Jenny Hazlehurst, Department of Biology.

Penn State Department of Toxicology and Carcinogenesis Sep 2011 – May 2014
Undergraduate research assistant; explored effects of dioxin on molecular signaling pathways of skin cancer tumor progression. PI: Adam Glick, Dept. of Toxicology and Carcinogenesis.

Teaching and Outreach

Teaching Assistant

R-DAVIS (UC Davis): Intro to data analysis and visualization; lab	Winter 2019, 2020
ENT 117 (UC Davis): Longevity; lecture	Summer 2018
PLS 147 (UC Davis): California Plant Communities; lecture	Spring 2018
WFC 198 (UC Davis): Climate Change Ecology; discussion	Winter 2018
BIOL 415 (Penn State): Ecotoxicology; lecture	Spring 2014, 2017
BIOL 220 (Penn State): Population and Community Biology; lab	Spring 2015, 2017
BIOL 110 (Penn State): Basic Concepts and Biodiversity; lab	Jul – Dec 2013

Community Café: Understanding the Science of Climate Change Feb 2017
Organized and moderated climate science discussion through Central PA Community Housing, focused on understanding the scientific approaches to climate change.

APPLES – Arctic Plant Phenology Learning through Engaged Science Jul 2016, Jun 2018
Led week-long field training in southwest Greenland study site. Guided teachers through collection of plant phenology data, monitoring of herbivore demographics, and remote sensing methodology. Contributed in workshop to help K-12 teachers develop lesson plans focused on Arctic ecological research.

Photography in Biology High School Curriculum Development and Instruction Oct 2015
Designed and oversaw daylong classroom activity for high school biology and photography students to practice applications of time-lapse and aerial photography in biological research.

Peer-Reviewed Publications

John, C. Miller, D., and Post, E. *in prep.* Spatial variation in green-up timing across region is associated with segregated drivers of landscape phenology along a caribou migratory corridor. *Arctic, Antarctic, and Alpine Research*.

Grants and Scholarships

FINNEST Future Investigator (NASA; \$135,000)	Jun 2019
Jastro Research Fellowship (UC Davis GGE; \$1000)	Jun 2018
Student Travel Grant (PSU IGDP; \$200)	Dec 2016
AINA Grant-In-Aid (Arctic Institute of North America; \$1000)	Apr 2016
Graduate Research Award (PSU Center for Landscape Dynamics; \$1000)	Dec 2015
Braddock Scholarship (PSU Eberly College of Science; \$3000)	Aug 2014
